A group of students using laptops, engaged in digital learning.

2. About the Project

Title: What is Innovate4DigiJob?

Content:

Innovate4DigiJob is a transformative initiative launched at College Baptiste Gacuba II, designed to empower students with digital skills, innovation capabilities, and entrepreneurial mindsets. By fostering a culture of problem-solving through ICT, the project aims to boost employment and digital entrepreneurship among youth in Rubavu District.

Key Objectives:

- Promote digital skills among students.
- Stimulate self-employment through innovation.
- Facilitate knowledge sharing between students and teachers.
- Solve community problems using local talent and technology.

3. Our Activities

Title: What We Do

- **Digital Skills Bootcamps:** Training students in coding, design, and digital marketing.

- **Innovator's Lab:** A physical and virtual space for students to prototype tech-based solutions.
- **Mentorship Sessions:** Connecting students with experienced IT professionals.
- **School Innovation Contests:** Showcasing the best ideas that solve real community problems.

4. Impact

Title: Real Change, Real Impact

Key Statistics:

- 100+ students trained in digital tools
- 10+ student-led digital projects launched
- 3 community issues already addressed with tech solutions

Testimonials:

Include quotes from students, teachers, or community leaders.

5. Meet the Team
